

NZ national Myrtle Rust (MR) surveillance

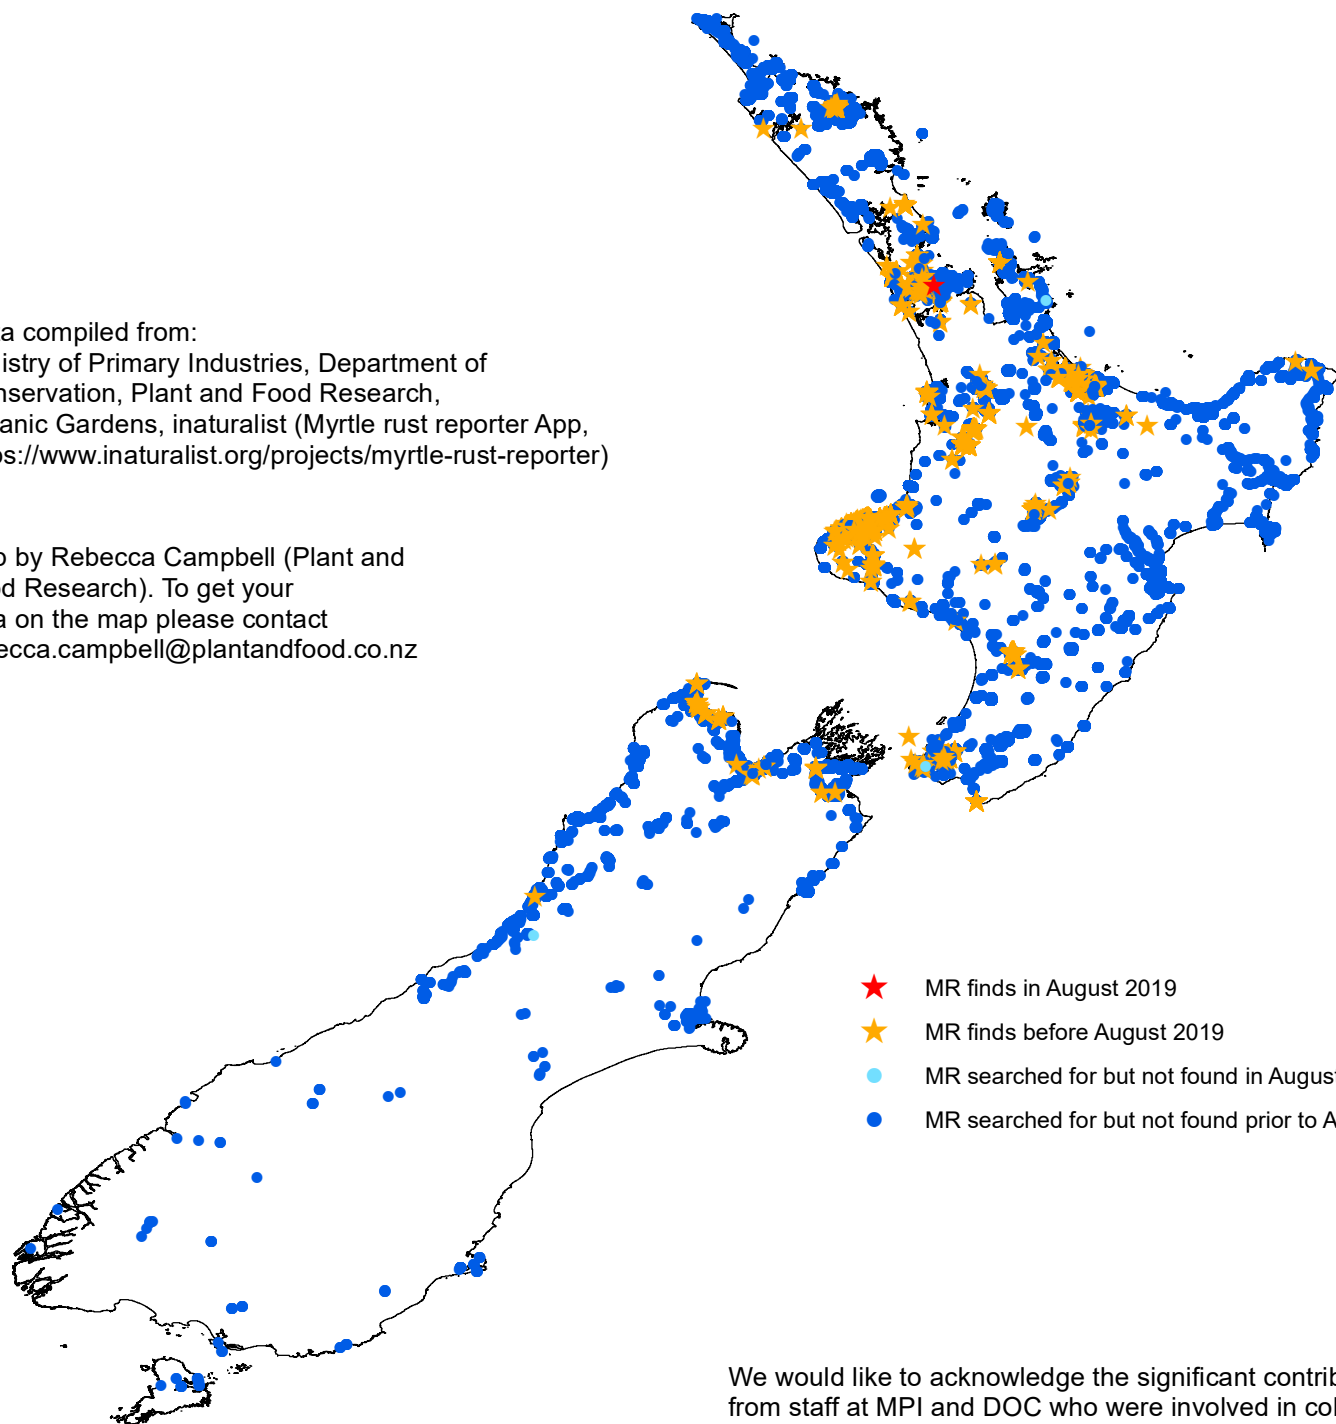

Data as of 5 September 2019

0 45 90 180 270 360
Kilometres

Data compiled from:
Ministry of Primary Industries, Department of Conservation, Plant and Food Research, Botanic Gardens, inaturalist (Myrtle rust reporter App, <https://www.inaturalist.org/projects/myrtle-rust-reporter>)

Map by Rebecca Campbell (Plant and Food Research). To get your data on the map please contact rebecca.campbell@plantandfood.co.nz

- ★ MR finds in August 2019
- ★ MR finds before August 2019
- MR searched for but not found in August 2019
- MR searched for but not found prior to August 2019

We would like to acknowledge the significant contribution from staff at MPI and DOC who were involved in collecting, compiling, anonymising and formatting the large amount of data since the beginning of the NZ MR response. This data was critical to improving the coverage and quality of data. Diagnostic validations were provided by plant pathologists at the Plant Health and Environment Laboratory (PHEL-MPI).
